

Series 220 Wardrobe Mirror Door Features

All Series 220 mirror doors have the finest quality float mirror with Class II backing meet U.S Government Standards 16CFR-1201 Category II 400 lbs. Impact Test as well as ANSI Z-97 Impact Test.

The by-passing panels have a continuous integral recessed pull providing easy access for door positioning without touching the mirror.

All Series 220 mirror doors have continuous silicon treated, double wool pile in the header for smooth and quiet operation.

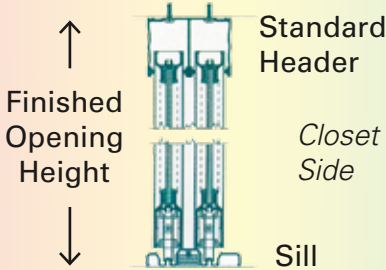

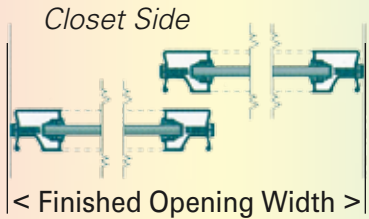

The mirrored door panels glide on adjustable nylon ball-bearing rollers for smooth, easy gliding opening and closing.

All wardrobe mirror doors are custom made in Hawaii.
